H RITO 5 7466985 — One of our very best bulls we have produced, truly a modern long straight well balanced bull. We think enough of this bull to be using him and wish to sell 1/2 interest and possession and keep semen rights. We have had a lot of interest in this bull and turned down some good figures to retain the bull to this time. Rito breeding at its best. His sire had weaning weight of 598 lbs., no creep and has been used heavily in our herd and at 4 years of age and in average condition weighed 1875 lbs., could weigh 2000 lbs., out of a good Marshall 1st calf heifer.

He is long, tall thick and will make a very large mature bull. Should line breed very well on the old Rito heifers. Exposed since September 20 pasture bred. This could make a foundation female.

Cow-Calf Profit Program

...makes the most of your forage!

Here's a new series of feeds specifically formulated for cow-calf operations. It includes one or more feeds for each phase of production—calves from birth to weaning...feedlot calves...replacement heifers...cows...bulls.

GTA nutritionists have designed these feeds to give you higher conception rates...stronger, healthier calves...heavier weaning weights...more beef per cow...more beef per acre.

And we'll help you make these feeds complement your own home-grown forages and grains. Our Customized Feed Service (CFS) provides free analysis of your newly harvested or stored feeds. Then we'll build a program combining your feed and our feed to fit your operation. So, stop in. Let's discuss setting up a Cow-Calf Profit Program in your operation.

**GOOD FEED
HELPS MAKE THE GOOD LIFE.**
